

Felipe Campos

Front-End Engineer

+55 (48) 99662-3917 | felipecamposdev@gmail.com | Curitiba - PR, Brazil

RESUME

Front-end developer with over 14 years of experience, specialized in creating modern and functional interfaces. My expertise ranges from interface design to the full implementation of web applications, always with a focus on cutting-edge technology.

Throughout my career, I've developed projects that bridge design and programming, ensuring aesthetically pleasing and high-performance solutions. I specialize in React and its ecosystem, where I apply best practices to deliver dynamic and responsive interfaces, always prioritizing clean, efficient, and maintainable code.

EXPERIENCES

Specialist Front-End Engineer | Globo

08/2022 - 09/2024

- Responsible for the architecture and development of a project started from scratch, ensuring scalability and code standards alongside other developers.

Technologies: *React.js · TypeScript · Material UI · REST API · React Query · Vite · Vitest*

Senior Front-End Engineer | Paralel

10/2021 - 07/2022

- Maintenance and development of new features in a globally used application for divers, utilizing React Native, GraphQL, and TypeScript.
- I refactored legacy class components into functional components using hooks and TypeScript, improving code efficiency and maintainability.

Technologies: *React.js · React Native · TypeScript · GraphQL · Jest · Enzyme*

Senior Front-End Engineer | Crowdfunder

05/2020 - 01/2021
